

## CLAIMS

What is claimed is

1. A method for identifying a telephone number to a computer system for processing a telephone call over the Internet to a user assigned to said telephone number, comprising:
  - receiving data entered into said computer system by a caller through a web browser;
  - searching said data for said telephone number or a proxy representing said telephone number;
  - processing said telephone call to said telephone number if said telephone number is found in said data; and
  - accessing a name server to translate said proxy into said telephone number for return to said computer system for processing said telephone call to said telephone number if said telephone number is not found in said data.
